**4 March 2015**

## Sit 'n stich...

Some very industrious and creative moms and teachers are getting together on Friday afternoons to knit or crochet squares to be made into blankets for charity! If you would like to join this worthy cause, pull out your needles and yarn and get together this week Friday (6 March) in the school staff room from 13h00 until 15h15.

Everyone is most welcome!

P.S. If you have some unused yarn at home, please send it to school for the sit 'n stich club!!

## Down the drain...

We were so appreciative of all the letters we received regarding the open storm water drain - they were touching and well written! Unfortunately, Mr Swart did not make the meeting but sent a representative instead. We have presented our case (again!) and have been told we will receive attention, hopefully within the next three years. We will keep writing and calling to make this dream a reality!

## Busy as bees...

It's bee season at school again! To help keep the buzzing numbers at bay, please could you send water instead of juice to school. It may take the sting out of our breaks!

## CHANGES TO PROFESSOR PHANTOM'S SCIENCE CLUB

### DATES...

Don't forget that the science club starts this week Friday. PLEASE NOTE... due to an imbalance of numbers between the various age groups, we will be grouping **ALL CHILDREN FROM GRADE R - 7 INTO ONE CLASS THIS WEEK FRIDAY!!** We apologise for the short notice, but the bulk of our 17 RSVP's fall into a single age group, so it makes it a bit challenging to split according to ages. Once our first club meeting has happened we will re-examine grouping arrangements.

**Where?** Teacher Erika's class

**When?** Friday, 15h00 - 16h00 (we will ring a bell to collect our scientists). Please note that if you are staying after school until 15h00 you will be charged for After Care

**Who do I pay?** Scientist Ian upon entry into the science club classroom (R80 for the lesson).

Have a blast!!

## Now you see it, now you don't...

A big "thank you" to Norkem Mall Optometrists for screening our preschool kiddies. You should receive feedback within a week. If your child's letter is marked "highly recommended" we would **STRONGLY** and **URGENTLY** urge you to take your child to be thoroughly screened. The screening they have done involves a scan of the retina and "highly recommended" means your child's reading was abnormal and needs to be seen to immediately. Don't wait as it may make a huge difference in your child's academic development!

## Cheep, cheep...

It's time for our annual miracle in Mickey Mouse... incubators filled with chicken eggs are going to be dropped off on Monday!! The chickies should make their appearance by Wednesday, so do come in and watch them gently tap their way into our noisy and exciting world! All grades are welcome to pop in to savour the magic.

**Theme for Mickey Mouse next week...**

Our feathered friends

Prayerfully and playfully  
The Teachers
